THE PROSECUTION INTERNSHIP PROGRAM

This program offers students a unique opportunity to gain courtroom experience. Pursuant to Michigan Court Rule 8.120, students are given authority to appear and represent the People of the State of Michigan in court proceedings. Though intern duties vary depending on the needs of each prosecutor's office, PAAM interns typically engage in activities such as plea negotiations, bench trials, formal hearings, and case review. Some appear at various family court proceedings. PAAM interns may also have the opportunity to prepare and conduct one or more jury trials during the summer. This experience is geared toward students interested in trial practice and assignments are similar to those given to new assistant prosecutors.

There are typically 10-15 internships available each summer at various locations across the state. **Increased flexibility regarding geographic location improves the odds of being selected for an internship. Applicants should identify only counties they would be willing to work in for the entire period of the internship.** Students should have completed their second year of law school prior to the start of the internship in May 2024. It is expected that interviews will be conducted in the fall of 2023 with placement notifications as soon as possible thereafter.

Internships last 11 weeks and interns are paid a salary of \$8,800.00, based upon a 40-hour workweek at a rate of \$20.00 per hour. **Intern positions are at-will and each intern serves at the pleasure of the host county prosecutor.** The Prosecuting Attorneys Coordinating Council (PACC) administers the program. PACC is a state agency responsible for providing training, informational services, and technical assistance to Michigan's 83 county prosecutors and their staff. PACC's executive staff will interview students and recommend intern candidates to each host county prosecutor. Each host prosecutor will make a final hiring decision after consideration of all the referral and the application materials. Additional interviews might be requested. PACC and host prosecutors will determine which applicants will be accepted for placement.

Interns selected for the program are required to attend a four-day training and orientation prior to starting the internship. The training will be held in the Lansing area in May 2024. This training, also attended by new assistant prosecutors, will orient interns to the duties and responsibilities of prosecutors and provide an intensive overview of legal subjects and trial advocacy. Interns will not receive pay during the training period, however the training costs including most meals and materials are covered. Interns living more than 50 miles from the area of the training will be provided lodging at no cost.
